

## How to get Photographs with Latitude and Longitude

As you're aware MCA has asked the Companies to provide Photographs of Registered office premises (outside and inside both) along with the Longitude and Latitude. There is an App freely available at Google Play Store "GPS MAP CAMERA" which can assist you to capture such photographs with Longitude and Latitude. You may use this App by following the below mentioned steps.

### Step 1: Download the App from play Store – "GPS MAP CAMERA"

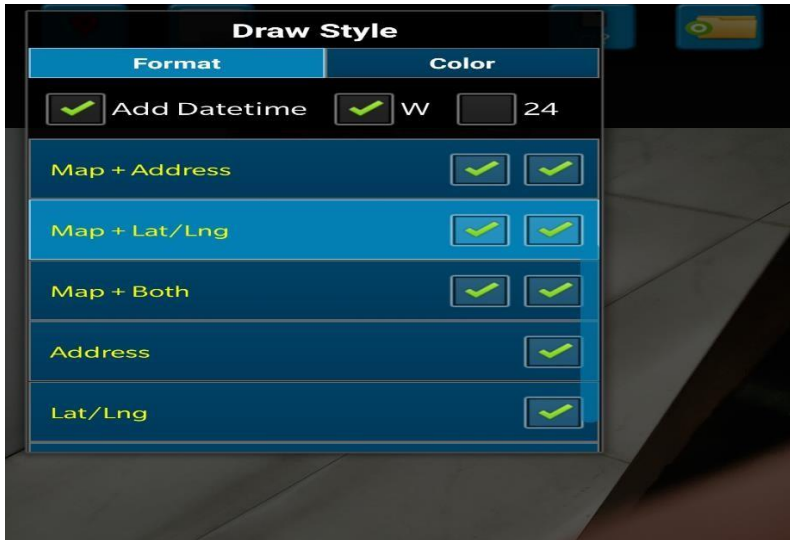

### Step 2: Open this app and click on the second button at top to make settings:

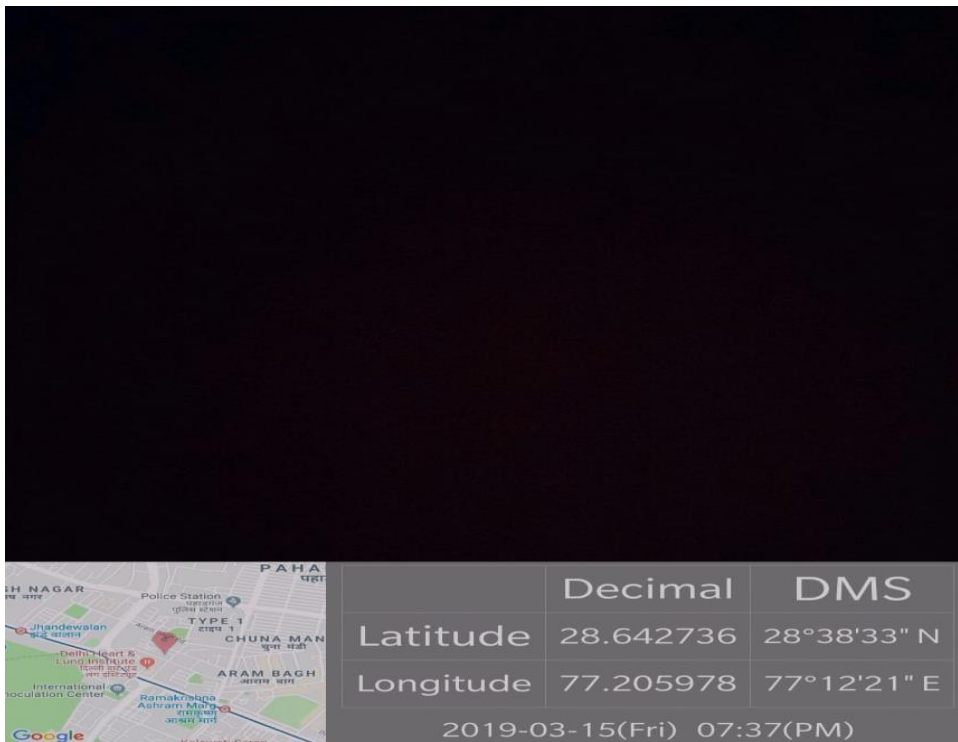

### Step 3: Select MAP + Lat/Lng

## How to get Photographs with Latitude and Longitude

### Step 4: Capture photographs.

Two copy (One normal and One with Lat and Lng) of each photograph will be saved in App gallery. Check the App Gallery and get the required photograph.
